

KEY INFORMATION MEMORANDUM

HDFC Overnight Fund

An open ended debt scheme investing in overnight securities. A Relatively Low Interest Rate Risk and Relatively Low Credit Risk.

This product is suitable for investors who are seeking*:	Scheme Riskometer#	Benchmark Riskometer#
- regular income over short term that may be in line with the overnight call rates - to generate returns by investing in debt and money market instruments with overnight maturity	 RISKOMETER <i>The risk of the scheme is low</i>	CRISIL Liquid Overnight Index (as per AMFI Tier I Benchmark)  RISKOMETER <i>The risk of the benchmark is low</i>

*Investors should consult their financial advisers, if in doubt about whether the product is suitable for them.

#As on September 30, 2025. For latest riskometer, investors may refer to the Monthly Portfolios disclosed on the website of the Fund viz. www.hdfcfund.com

Potential Risk Class (Maximum risk the Scheme can take)

Credit Risk →	Relatively Low (Class A)	Moderate (Class B)	Relatively High (Class C)
Interest Rate Risk ↓			
Relatively Low (Class I)	A-I		
Moderate (Class II)			
Relatively High (Class III)			
A-I - A Scheme with Relatively Low Interest Rate Risk and Relatively Low Credit Risk.			

Continuous Offer of Units at NAV based prices

This Key Information Memorandum (KIM) sets forth the information, which a prospective investor ought to know before investing. **For further details of the scheme/Mutual Fund, due diligence certificate by the AMC, Key Personnel, investors' rights & services, risk factors, penalties & pending litigations etc. investors should, before investment, refer to the Scheme Information Document ("SID") and Statement of Additional Information ("SAI") available free of cost at any of the Investor Service Centres or distributors or from the website www.hdfcfund.com**

The Scheme particulars have been prepared in accordance with Securities and Exchange Board of India (Mutual Funds) Regulations 1996 ("SEBI (MF) Regulations"), as amended till date, and filed with Securities and Exchange Board of India (SEBI). The units being offered for public subscription have not been approved or disapproved by SEBI, nor has SEBI certified the accuracy or adequacy of this KIM.

This Key Information Memorandum is dated November 21, 2025.

1. Name of Scheme

HDFC Overnight Fund

2. Type of Scheme

An open ended debt scheme investing in overnight securities. A Relatively Low Interest Rate Risk and Relatively Low Credit Risk.

3. Category of Scheme

Overnight Fund

4. SEBI Scheme Code

HDFC/O/D/ONF/18/03/0036

5. Investment Objective

To generate returns by investing in debt and money market instruments with overnight maturity. **There is no assurance that the investment objective of the Scheme will be achieved.**

6. Asset Allocation Pattern of the Scheme

Under normal circumstances the asset allocation (% of Net Assets) of the Scheme's portfolio will be as follows:

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Debt and Money Market instruments# (including MIBOR linked instruments with daily put and call option#)	Upto 100	

#maturing on or before next Business Day.

The Scheme may invest in the liquid schemes of Mutual Funds in accordance with the applicable extant SEBI (Mutual Funds) Regulations as amended from time to time.

As per clause 12.24 of Master Circular, the cumulative gross exposure through debt, repo transactions and other permitted securities/assets and such other securities/assets as may be permitted by SEBI from time to time shall not exceed 100% of the net assets of the Scheme.

Indicative Table (Actual instrument/percentages may vary subject to applicable SEBI circulars)

Sr. no	Type of Instrument	Percentage of exposure	Circular references
1.	Securities Lending	a) Upto 40% of the net assets b) Higher of Rs. 5 crores or 10% of the net assets at single intermediary i.e. broker level	Clause 12.11 of Master Circular
2.	Repo/ Reverse Repo / Tri-Party repos (TREPS) on Government Securities and Treasury Bills (G-Secs and T-Bills)	To meet liquidity requirements or pending deployment as per regulatory limits	Clause 1 of Seventh Schedule of SEBI Mutual Funds Regulations
3.	Credit Default Swaps (CDS)^	Upto 10% of AUM of scheme and shall be within the overall limit of derivatives	Clause 12.28 of Master Circular
4.	Repo/ Reverse Repo in permitted corporate debt securities	Upto 10% of the net assets	Clause 12.18.1.1 of Master Circular
5.	Mutual Fund Units (as indicated above)	Upto 5% of the net assets of the Mutual Fund (i.e. across all the schemes of the Fund)	Clause 4 of Seventh Schedule of SEBI Mutual Funds Regulations

^As per Clause 12.28.6 of Master Circular the Scheme shall not sell CDS contracts.

The Scheme will not make any investment in-

SR. No	Types of Instruments
1.	Foreign Debt Securities
2.	Derivatives
3.	Debt securities having structured obligations (SO rating) and/or credit enhancements (CE rating)
4.	Short term deposits of scheduled commercial banks

In addition to the instruments stated in the table above, the Scheme may undertake Short Selling and such other transactions in accordance with guidelines issued by SEBI and the scheme may also hold cash from time to time.

Changes in asset allocation pattern/ Portfolio Rebalancing:

Short Term Defensive Consideration:

Subject to SEBI (MF) Regulations the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the Unit holders. As per clause 1.14.1.2.b of Master Circular, as may be amended from time to time, such changes in the investment pattern will be for short term and for defensive consideration only.

In the event of change in the asset allocation, the fund manager will carry out portfolio rebalancing within 30 calendar days or such other timeline as may be prescribed by SEBI from time to time.

7. Investment Strategy

The investment objective of the Scheme is to generate returns by investing in debt and money market instruments with overnight maturity.

The total assets of the Scheme will be invested in debt securities and money market instruments maturing on or before next Business Day. In case of securities with put and call options (daily or otherwise) the residual maturity (deemed or actual) shall be on or before the next Business Day. Investments under the Scheme would be made predominantly in Tri-Party Repos (TREPS), overnight reverse repos and fixed income securities/ instruments with overnight maturity.

The Scheme may invest in liquid funds for overnight deployment.

As part of the Fund Management process, the Scheme may use derivative instruments such as futures and options, or any other derivative instruments that are permissible or may be permissible in future under applicable regulations. However, trading in derivatives by the Scheme shall be for restricted purposes as permitted by the regulations.

For detailed derivative strategies, please refer to SAI. For exposure limits to derivatives, refer section '**Where will the scheme invest**' under **Section II, Part II, Clause A in the SID**.

Though every endeavour will be made to achieve the objective of the Scheme, the AMC/Sponsor/Trustee do not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the details on risk factors carefully before investment. Scheme specific Risk Factors are summarized below:

■ Scheme Specific Risk Factors:

Some of the specific risk factors related to the Scheme include, but are not limited to the following:

(i) Risk factors associated with investing in Fixed Income Securities

- The Net Asset Value (NAV) of the Scheme, to the extent invested in Debt and Money Market instruments, will be affected by changes in the general level of interest rates. The NAV of the Scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.
- Money market instruments, while fairly liquid, lack a well developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
- Investments in money market instruments involve credit risk commensurate with short term rating of the issuers.
- Investment in Debt instruments are subject to varying degree of credit risk or default (i.e. the risk of an issuer's inability to meet interest or principal payments on its obligations) or any other issues, which may have their credit ratings downgraded. Changes in financial conditions of an issuer, changes in economic and political conditions in general, or changes in economic or and political conditions specific to an issuer, all of which are factors that may have an adverse impact on an issuer's credit quality and security values. This may increase the risk of the portfolio. The Investment Manager will endeavour to manage credit risk through in-house credit analysis.
- **Prepayment Risk:** Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the Scheme to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the Scheme.
- **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- **Settlement risk:** Different segments of Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are uninvested and no return is earned thereon. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio, due to the absence of a well developed and liquid secondary market for debt securities, may result at times in potential losses to the

Scheme in the event of a subsequent decline in the value of securities held in the Scheme's portfolio.

- Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
- Different types of fixed income securities in which the Scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the Scheme risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities. Further even among corporate bonds, AAA rated bonds are comparatively less risky than AA rated bonds.
- The AMC may, considering the overall level of risk of the portfolio, invest in lower rated / unrated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the portfolio.
- As zero coupon securities do not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates and are subject to issuer default risk. Therefore, the interest rate risk of zero coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio. Zero coupon or deep discount bonds are debt obligations that do not entitle the holder to any periodic payment of interest prior to maturity or a specified date when the securities begin paying current interest and therefore, are generally issued and traded at a discount to their face values. The discount depends on the time remaining until maturity or the date when securities begin paying current interest. It also varies depending on the prevailing interest rates, liquidity of the security and the perceived credit risk of the Issuer. The market prices of zero coupon securities are generally more volatile than the market prices of securities that pay interest periodically.

(ii) Risks associated with investment in unlisted securities:

- Except for any security of an associate or group company, the scheme can invest in securities which are not listed on a stock exchange ("unlisted Securities") which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. Unlisted debt securities may lack a liquid secondary market and there can be no assurance that the Scheme will realise their investments in unlisted securities at a fair value.
- Investment in unrated instruments may involve a risk of default or decline in market value higher than rated instruments due to adverse economic and issuer-specific developments. Such investments display increased price sensitivity to changing interest rates and to a deteriorating economic environment. The market values for unrated investments tends to be more volatile and such securities tend to be less liquid than rated debt securities.

(iii) Risk factors associated with investment in Tri-Party Repo

The mutual fund is a member of securities segment and Triparty Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; Thus, reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL).

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members. Thus, the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

CCIL shall maintain two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty Repo trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

(iv) Risk factors associated with Securities Lending

As with other modes of extensions of credit, there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The scheme may not be able to sell lent out securities, which can lead to temporary illiquidity & loss of opportunity.

(v) Risk factors associated with Short Selling

Short-selling is the sale of shares which are not owned by the seller at the time of trade. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock he shorted and returns the stock to close out the loan. If the price of the stock corrects,

Short seller can buy the stock back for less than he received for selling it and earn profit (the difference between higher short sale price and the lower purchase price). If the price of stock appreciates, short selling results in loss. Thus, Short positions carry the risk of losing money and these losses may grow theoretically unlimited if the price increases without limit and shall result into major losses in the portfolio.

(vi) Risk factors associated with Repo in permitted Corporate Debt Securities

In repo transactions, also known as a repo or sale repurchase agreement, securities are sold with the seller agreeing to buy them back at later date. The repurchase price should be greater than the original sale price, the difference effectively representing interest. A repo in corporate debt securities is economically similar to a secured loan, with the buyer receiving corporate debt securities as collateral to protect against default. Some of the risks associated with repo in corporate debt are given below:

Counterparty Risk: Counterparty risk refers to the inability of the seller to meet the obligation to buy back securities at the contracted price on the contracted date. In case of over the counter (OTC) repo trades, the investment manager will endeavour to manage counterparty risk by dealing only with counterparties having strong credit profiles. Also, the counter-party risk is to an extent mitigated by taking collateral equivalent in value to the transaction after knocking off a minimum haircut on the intrinsic value of the collateral. In the event of default by the repo counterparty, the scheme shall have recourse to the corporate debt securities. In case the repo transaction is executed on exchange platform approved by RBI/SEBI, the exchange may also provide settlement guarantee.

Collateral Risk: Collateral risk arises when the market value of the securities is inadequate to meet the repo obligations. This risk can be partly mitigated by restricting participation in repo transactions only in corporate debt securities which are approved by credit risk team. Additionally, to address the risk related to reduction in market value of corporate debt security held as collateral due to credit rating downgrade, the repo contract can incorporate either an early termination of the repo agreement or call for fresh margin to meet the minimum haircut requirement or call for replacement of security with eligible security. Moreover, the investment manager may apply a higher haircut on the underlying security than required as per RBI/SEBI regulation to adjust for the illiquidity and interest rate risk on the underlying instrument. To mitigate the risk of price reduction due to interest rate changes, the adequacy of the collateral can be monitored on a daily basis by considering the daily market value & applying the prescribed haircut. The fund manager or the exchange can then arrange for additional collateral from the counterparty, within a prespecified period. If the counterparty is not able to top-up either in form of cash / collateral, it would tantamount to early termination of the repo agreement, and the outstanding amount can be recovered by sale of collateral.

(vii) Risk factors associated for investments in Mutual Fund Schemes

1. Movements in the Net Asset Value (NAV) of these Schemes may impact the performance. Any change in the investment policies or fundamental attributes of these Schemes will affect the performance of the Scheme to the extent of investment in such schemes.

2. Redemptions by in these Schemes would be subject to applicable exit loads.

(viii) General Risk factors

- Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities. The NAV of the Units of the Scheme can go up or down because of various factors that affect the capital markets in general.
- As the liquidity of the investments made by the Scheme could, at times, be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for redemption of Units may be significant in the event of an inordinately large number of redemption requests or restructuring of the Scheme. In view of the above, the Trustee has the right, in its sole discretion, to limit redemptions (including suspending redemptions) under certain circumstances, as described under **section Right to Restrict Redemption and / or Suspend Redemption of the units.**
- At times, due to the forces and factors affecting the capital market, the Scheme may not be able to invest in securities falling within its investment objective resulting in holding the monies collected by it in cash or cash equivalent or invest the same in other permissible securities / investments amounting to substantial reduction in the earning capability of the Scheme. The Scheme may retain certain investments in cash or cash equivalents for its day-to-day liquidity requirements.
- Investment strategy to be adopted by the Scheme may carry the risk of significant variance between the portfolio allocation of the Scheme and the Benchmark particularly over a short to medium term period.
- Performance of the Scheme may be affected by political, social, and economic developments, which may include changes in government policies, diplomatic conditions, and taxation policies.
- The Scheme at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.

For details on risk mitigation measures, please refer SID.

8. Plans/ Options

Plans: Regular & Direct

The Scheme offers Regular Plan and Direct Plan.

Each Plan offers following Options:

Option/Facility	Default Plan/Option	Frequency*	Record Date*
Growth	Growth Option in case Growth Option or IDCW Option**.	-	-

	IDCW Option is not indicated.		
IDCW (Daily) Reinvestment	Daily Reinvestment of IDCW Option/Facility	Daily	Every Business Day and the holiday immediately preceding a Business Day

*or immediately succeeding Business Day if that is not a Business Day. The Trustee reserves the right to change the frequency/record date from time to time

**Under this Option, it is proposed to declare IDCW subject to availability of distributable surplus, as computed in accordance with SEBI (MF) Regulations. Investors should note that the IDCW amount can be distributed out of investor's capital (Equalization Reserve), which is part of sale price that represents realized gains.

For detailed disclosure on default plans and options, kindly refer SAI.

9. Applicable NAV (after the scheme opens for subscriptions and redemptions)

The below cut-off timings and applicability of NAV shall be applicable in respect of valid applications received at the Official Point(s) of Acceptance on a Business Day (During Continuous Offer Period):

A] For Purchase (including switch-in) of any amount:

- In respect of valid application received upto 1.30 p.m. on a day at the official point(s) of acceptance and funds for the entire amount of subscription/purchase as per the application are credited to the bank account of the respective Liquid Schemes/Plans before the cut-off time i.e. available for utilization before the cut-off time - the closing NAV of the day immediately preceding the day of receipt of application shall be applicable;
- In respect of valid application received after 1.30 p.m. on a day at the official point(s) of acceptance and funds for the entire amount of subscription/purchase as per the application are credited to the bank account of the respective Liquid Schemes/Plans on the same day i.e. available for utilization on the same day - the closing NAV of the day immediately preceding the next Business Day shall be applicable; and
- Irrespective of the time of receipt of application at the official point(s) of acceptance, where the funds for the entire amount of subscription/purchase as per the application are not credited to the bank account of the respective Liquid Schemes/Plans before the cut-off time i.e. not available for utilization before the cut-off time - the closing NAV of the day immediately preceding the day on which the funds are available for utilization shall be applicable.

B] For Switch -in to Liquid Schemes/Plans from other Schemes of HDFC Mutual Fund:

- Application for switch-in is received before the applicable cut-off time.
- Funds for the entire amount of subscription/purchase as per the switch-in request are credited to the bank account of the Scheme before the cut-off time.
- The funds are available for utilization before the cut-off time, by the respective switch-in schemes.

In case of switches, the request should be received on a day which is a Business Day for the Switch-out scheme. Redemption for switch-out shall be processed at the applicable NAV as per cut-off timing. Switch-in will be processed at the Applicable NAV (on a Business Day) based on realization of funds as per the redemption pay-out cycle for the switch-out scheme.

For investments through systematic investment routes such as Systematic Investment Plans (SIP), Flex SIP, Systematic Transfer Plans (STP), Flex-STP, Swing STP, Transfer of Income Distribution cum Capital Withdrawal (IDCW) Plan facility (TIP), etc. the units will be allotted as per the closing NAV of the day on which the funds are available for utilization by the Target Scheme irrespective of the installment date of the SIP, STP or record date of IDCW etc.

While the AMC will endeavour to deposit the payment instruments accompanying investment application submitted to it with its bank expeditiously, it shall not be liable for delay in realization of funds on account of factors beyond its control such as clearing / settlement cycles of the banks.

Since different payment modes have different settlement cycles including electronic transactions (as per arrangements with Payment Aggregators / Banks / Exchanges etc), it may happen that the investor's account is debited, but the money is not credited within cut-off time on the same date to the Scheme's bank account, leading to a gap / delay in Unit allotment. Investors are therefore urged to use the most efficient electronic payment modes to avoid delays in realization of funds and consequently in Unit allotment.

C] For Redemption (including switch-out) applications

- In respect of valid applications received upto 3.00 p.m. on a Business Day which is followed by a Business Day, same Business Day's closing NAV shall be applicable.
- In respect of valid applications received upto 3.00 p.m. on a Business Day which is followed by a Non-Business day, the closing NAV of the day immediately preceding the next Business Day shall be applicable.
- In respect of valid applications received after 3.00 p.m., the NAV applicability shall be same as for applications received up to 3.00 p.m. on the next Business day, as specified above.

In accordance with clause 8.4.5.4 of Master Circular read with SEBI circular No. SEBI/HO/IMD/PoD2/P/CIR/2025/56 dated April 22, 2025, provided that in case the application is received through online mode, the cut-off timing of 7 PM shall be applicable.

D] For redemption through Instant Access Facility ("IAF") *

- In respect of valid IAF request received up to 3.00 pm on a calendar day, the applicable NAV shall be the lower of (i) NAV of previous calendar day; and (ii) NAV of calendar day on which the request is received;
- In respect of valid IAF request received after 3.00 pm on a calendar day, the applicable NAV shall be lower of (i) NAV of calendar day on which such request is received; and (ii) NAV of the next calendar day.

* IAF facilitates credit of redemption proceeds (max. upto Rs. 50,000/- per day) into the bank account of the investor instantly through Immediate Payment Service (IMPS) at any time or day of the week.

Transactions through online facilities / electronic modes:

The time of transaction done through various online facilities / electronic modes offered by the AMC, for the purpose of determining the applicability of NAV, would be the time when the request for purchase / sale / switch of units is received in the servers of AMC/RTA.

The AMC has the right to amend cut off timings subject to SEBI (MF) Regulations for the smooth and efficient functioning of the Scheme.

10. Minimum Application Amount / Number of Units

Purchase (including switch-in)	Additional Purchase (including switch-in)	Redemption (including switch-out)
Growth Option: Rs.100/- and any amount thereafter. Daily IDCW Option: Rs.10,000/- and any amount thereafter*. *applicable if investing for the first time in a folio in the Scheme. Note: Allotment of units will be done after deduction of applicable stamp duty and other charges, if any.	Growth Option: Rs.100/- and any amount thereafter. Daily IDCW Option: Rs.5,000/- and any amount thereafter. Note: Allotment of units will be done after deduction of applicable stamp duty and other charges, if any.	Growth Option: Rs.100/- and multiples of Re. 1/- thereafter. Daily IDCW Option: Rs.5,000/- and multiples of Re. 1/- thereafter. Note: There will be no minimum redemption criterion for Unit based redemption.

11. Despatch of Redemption Request

Within 3 working days of the receipt of valid redemption request at the Official Points of Acceptance of HDFC Mutual Fund for this Scheme or within such timelines as may be prescribed by SEBI / AMFI from time to time in case of exceptional circumstances or otherwise.

12. Benchmark Index

CRISIL Liquid Overnight Index

13. Dividend / IDCW Policy

It is proposed to declare IDCW subject to availability of distributable surplus, as computed in accordance with SEBI (Mutual Funds) Regulations, 1996.

IDCW, if declared, will be paid (subject of deduction of tax at source, if any) to those Unitholders / Beneficial Owners whose names appear in the Register of Unit holders maintained by the Mutual Fund/ statement of beneficial ownership maintained by the Depositories, as applicable, under the IDCW option as on the Record Date. The IDCW payment shall be transferred to the Unitholders within 7 working days of the record date of such declaration of IDCW or such other timeline as may be specified by SEBI from time to time. In the event of failure to transfer IDCW within the stipulated period, the AMC shall be liable to pay interest @ 15% per annum to the Unitholders for the delay in payment as computed from the Record Date or from such other date or for such period as may be advised by SEBI from time to time. The Trustee/ AMC reserves the right to change the record date from time to time. However, it must be distinctly understood that the actual declaration of IDCW and the frequency thereof will inter alia, depend on the availability of distributable surplus as

computed in accordance with SEBI (Mutual Funds) Regulations, 1996. The decision of the Trustee in this regard shall be final.

There is no assurance or guarantee to unit holders as to the rate of IDCW distribution nor that IDCW will be paid regularly. On payment of IDCW, the NAV will stand reduced by the amount of IDCW and IDCW tax (if applicable) paid.

14. Name of the Fund Manager and tenure of managing the Scheme (As on September 30, 2025)

Swapnil Jangam	7 months
----------------	----------

Note: W.e.f. October 01, 2025, Mr. Swapnil Jangam and Mr. Rohan Pillai are the fund managers for the Scheme.

15. Name of the Trustee Company

HDFC Trustee Company Limited

With Derivatives - N.A.

18. Expenses of the Scheme

Continuous Offer period

1. Load Structure

Exit Load: Nil

- No Exit Load shall be levied for switching between Plans / Options within the Scheme. However, exit load will be applicable if the units are switched-out / redeemed from the Scheme within the exit load period from the initial date of purchase.
- No Exit load will be levied on Bonus Units and on units allotted on Re-investment of Income Distribution cum Capital Withdrawal.
- No Exit load will be levied on Units allotted in the Target Scheme under the Transfer of Income Distribution cum Capital Withdrawal (IDCW) Plan Facility (TIP Facility).
- In case of Systematic Transactions such as Systematic Investment Plan (SIP), Flex Systematic Investment Plan (Flex SIP), Systematic Transfer Plan (STP), HDFC Flex Systematic Transfer Plan (Flex STP), HDFC Swing Systematic Transfer Plan (Swing

STP), etc., Exit Load, if any, prevailing on the date of registration / enrolment shall be levied.

The Trustee reserves the right to change / modify the load structure from a prospective date.

2. **Recurring Expenses (% p.a. of daily Net Assets)**

Maximum Total Expense Ratio under Regulation 52 (6):

On the first Rs.500 crores of the daily net assets - 2.00% p.a.

On the next Rs.250 crores of the daily net assets - 1.75% p.a.

On the next Rs.1,250 crores of the daily net assets - 1.50% p.a.

On the next Rs.3,000 crores of the daily net assets - 1.35% p.a.

On the next Rs.5,000 crores of the daily net assets - 1.25% p.a.

On the next Rs.40,000 crores of the daily net assets - Total expense ratio reduction of 0.05% for every increase of Rs.5,000 crores of daily net assets or part thereof.

On balance of the assets – 0.80% p.a.

Actual expenses (inclusive of GST on Management fees and additional TER) for the previous financial year ended March 31, 2025 (Audited):

- Regular Plan: 0.18% p.a.
- Direct Plan: 0.10% p.a.

Direct Plan under the Scheme shall have a lower expense ratio than Regular Plan, excluding distribution expenses, commission, etc., and no commission shall be paid from Direct Plan. All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a Regular Plan.

For the actual current expenses being charged, the investor should refer to the website of the mutual fund. Click here for Total Expense Ratio (TER) - <https://www.hdfcfund.com/statutory-disclosure/total-expense-ratio-of-mutual-fund-schemes/reports>

Click here for factsheet – <https://www.hdfcfund.com/investor-services/factsheets>

The maximum limit of recurring expenses that can be charged to the Scheme would be as per Regulation 52 of the SEBI (MF) Regulation, 1996. Investors are requested to read “**Section-Annual Scheme Recurring Expenses**” in the **SID**.

19. Tax Treatment for the Investors (Unit Holders)

Investors are advised to refer to the details in the Statement of Additional Information and also independently refer to their tax advisor.

20. Daily Net Asset Value (NAV) Publication

The AMC shall update the NAVs by 11.00 p.m. on every Business day on the website(s) of AMC and AMFI.

22. Unit Holder's Information

Email ID for communication:

First / Sole Holders should register their own email address and mobile number in their folio for speed and ease of communication in a convenient and cost-effective manner, and to help prevent fraudulent transactions.

Account Statements:

1. The AMC shall send an allotment confirmation specifying the units allotted by way of email and/or SMS within 5 working days of receipt of valid application/transaction to the Unit holders registered e-mail address and/ or mobile number (whether units are held in demat mode or in account statement form).
2. A Consolidated Account Statement (CAS) detailing all the transactions across all mutual funds and holdings at the end of the month shall be sent to the Unit holders in whose folio(s) transaction(s) have taken place during the month on registered email address on or before 12th of the succeeding month and by 15th of the succeeding month for those who have opted for physical copy.
3. Half-yearly CAS shall be issued to all investors providing the prescribed details across all schemes of mutual funds and securities held in dematerialized form across demat accounts, if applicable, at the end of every six months (i.e. September/ March) on or before 18th day of succeeding month on registered email address and 21st day of succeeding month through physical copy for those who do not have registered email addresses.

For further details, refer SAI.
