Investment Objective

The investment objective of the Scheme is to generate capital appreciation / income from a portfolio, predominantly of equity & equity related instruments. The Scheme will also invest in debt and money market instruments. There is no assurance that the investment objective of the Scheme will be achieved.

HDFC Hybrid Equity Fund: Investment Strategy

The fund assets are predominantly invested in equity and equity related instruments (65%-80%), and the balance in debt instruments.

- The fund, broadly targets returns greater than debt schemes with lower volatility than equity schemes.
- Within equities, the fund maintains a judicious mix of large cap (70%-90%), mid cap (5%-20%) & small cap (5%-20%).
- While selecting stocks, the fund follows a bottom-up stock picking strategy, with focus on reasonable quality businesses and prefer companies that are available at acceptable valuations.
- Within debt, the fund actively manages its average maturity based on the manager's interest rate outlook.
- Current positioning with over 65% exposure to equities. Scheme having an equity corpus of 65% and above is considered as an equity-oriented fund for taxation purpose.
