## Investment Objective

The investment objective of the Scheme is to generate capital appreciation / income from a portfolio, predominantly of equity & equity related instruments. The Scheme will also invest in debt and money market instruments. There is no assurance that the investment objective of the Scheme will be achieved.

## HDFC Hybrid Equity Fund: Investment Strategy

The fund assets are predominantly invested in equity and equity related instruments (65%-80%), and the balance in debt instruments.

- The fund, broadly targets returns greater than debt schemes with lower volatility than equity schemes.
- Within equities, the fund maintains a judicious mix of large cap (70%-90%), mid cap (5%-20%) & small cap (5%-20%).
- While selecting stocks, the fund follows a bottom-up stock picking strategy, with focus on reasonable quality businesses and prefer companies that are available at acceptable valuations.
- Within debt, the fund actively manages its average maturity based on the manager's interest rate outlook.
- Current positioning with over 65% exposure to equities. Scheme having an equity corpus of 65% and above is considered as an equity-oriented fund for taxation purpose.
