## Investment Objective

The objective of the Scheme is to generate long term capital appreciation/income by investing in a diversified portfolio of equity & equity related instruments, debt & money market instruments and Gold related instruments. There is no assurance that the investment objective of the Scheme will be achieved.

## HDFC Multi-Asset Fund: Investment Strategy

- HDFC Multi-Asset Fund aims to generate long term capital appreciation/income by investing in a diversified portfolio of equity & equity related instruments (65% to 80% of total assets), debt & money market instruments (10% to 30% of total assets) and Gold Related instruments (10% to 30% of total assets).
- Investment philosophy for Equity exposure is to maintain an effectively diversified portfolio with focus on:
  - Good quality business at reasonable valuations or attractively valued business with near to medium term triggers
  - Troika of quality assessment, earning outlook and valuation with equal importance to each criteria.
- Investment in debt securities will be guided by credit quality, liquidity, interest rates and their outlook.
- The Scheme may invest in Gold ETFs and other gold related instruments.
- The Scheme may seek to generate income through arbitrage opportunities such as Index/Stock Spot vs Index/Stock Futures or Index Futures vs Stock Futures or Future of same stock with different expiry months or ADR/GDR vs underlying shares etc. The Scheme may also use corporate action or event driven strategy where there is a potential opportunity for arbitrage in cash or derivate market such as dividend arbitrage or buy-back arbitrage or merger etc.
