Investment Objective

To provide long-term capital appreciation by investing predominantly in equity and equity related securities of Pharma and healthcare companies. There is no assurance that the investment objective of the Scheme will be achieved.

Why Invest in HDFC Pharma and Healthcare Fund?

- Domestic healthcare spends to increase due to rising longevity, low penetration and growing elderly population
- Rising chronic diseases to result in repeated buying and higher margins for pharma companies
- Growing share of Indian companies in US generics, improved pricing erosion environment and large chunk of drugs going off-patent over the next few years provides a big opportunity for Indian pharma companies
- Biosimilars - an untapped long-term growth lever for Indian pharma companies
- Indian pharma companies are now playing pivotal role in driving global innovation through the CDMO* route
- Manufacturing Leadership - India has the second highest share of USFDA approved facilities; the manufacturing competitiveness has improved further with introduction of PLI scheme and low labour cost.
