Fund Positioning

HDFC Medium to Long Term Fund focuses on generating returns over a medium to long term by investing in debt securities and money market instruments, while maintaining a portfolio Macaulay Duration between 4 to 7 years under normal circumstances. The Fund focuses on optimizing returns while maintaining a balance of safety, yield and liquidity. In light of current anticipated adverse situation due to rising US yields, debt outflows by FPI's & inflation risk tilted to upside, HDFC Medium to Long Term Fund would maintain portfolio Macaulay Duration between one & seven years. The scheme is ideal for those with an investment horizon of more than 18 months.

Investment Objective

To generate income / capital appreciation through investments in debt and money market instruments. There is no assurance that the investment objective of the Scheme will be achieved.
