Relatively Low (Class I)																											
Moderate (Class II)																											
Relatively High (Class III)																											
B-I - A Scheme with Relatively Low Interest Rate Risk and Moderate Credit Risk.																											

Benchmark and Scheme Riskometer as on February 28, 2026

Past performance may or may not be sustained in future and is not a guarantee of any future returns. Returns greater than 1 year period are compounded annualized (CAGR). Different plans viz. Regular Plan and Direct Plan have a different expense structure. The expenses of the Direct Plan under the Scheme will be lower to the extent of the distribution expenses / commission charged in the Regular Plan. Load is not taken into consideration for computation of performance. Since Inception Date = Date of First allotment in the Scheme / Plan. N.A.:Not Available
